Dear Madam:

Re: BC Hydro F2017-F2019 Revenue Requirements Application,
BCUC Project No. 3698869
BC Sustainable Energy Association and Sierra Club BC comment on extension request

---

BCSEA-SCBC support AMPC's February 1, 2017 request for an extension of the deadline for intervener evidence [Exhibit C9-5]. If the Commission is inclined to grant the request, BCSEA-SCBC would ask that the extension apply to all intervener evidence. BCSEA-SCBC are preparing evidence now and would be able to file it by the existing deadline. However, the ten day period to review BC Hydro's responses to the second round of information requests has proven to be challenging and a short extension would be helpful.

All the above is respectfully submitted.

Yours truly,

William J. Andrews
