Additional information

Please state your reasons for intervening in this proceeding:
We continue to act as counsel for BCOAPO et al. ("BCOAPO"), a group of community-based organizations who collectively represent a diverse cross-section of individual policy holders within BC who hold progressive views. Our interventions focus on the best interests of ICBC's individual policyholders as a class while taking into consideration the impacts of rates, rate structures, and projects on the most economically vulnerable among them: the low and fixed income residents of BC.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:
As individual policy holders, our clients have a strong interests in this proceeding because they will be affected by the approvals sought by the insurer in this proceeding. We have participated in many ICBC proceedings over the years, and we bring an important perspective to this public process.

Please list the key issues you intend to address in the proceeding:
Some of the key issues we will examine will include the following: the legal representation rate; performance measures; the actuary rate level indication analysis; and investment portfolio performance, and how the various issues dealt with in the RRA relate to the state of ICBC in general.

For administrative purposes only
