Re: British Columbia Transmission Corporation
Project No. 3698395/Order No. G-70-05
Certificate of Public Convenience and Necessity Application –
Vancouver Island Transmission Reinforcement Project

The Commission will soon be issuing a Regulatory Timetable for VITR that will include dates for parties to submit Information Requests to BCTC and for BCTC to respond. We note that your August 6, 2005 e-mail resubmits the June 9, 2005 letter addressed to Minister Neufeld, Ministry of Energy and Mines (marked at Exhibit C3-2) but also now includes additional information requests. Your August 6 e-mail has been entered as Exhibit C3-9.

To ensure that none of TRAHVOL's questions are missed, and for the convenience of all parties, the Commission requests that TRAHVOL file a consolidated package of questions by the date set out in the Regulatory Timetable. The letter should be addressed to BCTC and distributed to BCTC, the Commission and all other Intervenors. The distribution lists for this proceeding may be found on the Commission's VITR web page (<http://www.bcuc.com/ApplicationView.aspx?ApplicationId=78>).

Please note that Registered Intervenors are responsible for sending copies of their correspondence, Information Requests, Responses and subsequent filings, to BCTC, the Commission and all other participants who are registered as Intervenors as established in the Commission's Document Filing Protocols. The Document Filing Protocols were attached to the Commission's response to TRAHVOL's Intervention.

Should you have any questions or concerns regarding the Commission's proceeding format, please do not hesitate to contact me.

Yours truly,
