SECTION 5
TRANSMISSION INQUIRY EXHIBIT A-29

To: Long-Term Transmission Inquiry Participants

Re: British Columbia Utilities Commission
Project No. 3698545/Order G-30-09
Inquiry into British Columbia's Long-Term Transmission Infrastructure

Form of Affidavit for Participant Assistance/Cost Awards ("PACA")

In its letter dated October 2, 2009 (Exhibit A-28) the Inquiry Panel provided information on PACA funding for participants in the Long-Term Electricity Transmission Inquiry, including an expedited PACA bi-monthly approval process for such funding. In Exhibit A-28, the Panel stated that it would require each application for an expedited bi-monthly interim cost award to be supported by an affidavit verifying that the services invoiced were actually performed and delivered and the expenses actually incurred for the purpose of participating in the Inquiry. It also stated that the form of affidavit would be posted on the Commission's website: www.bcuc.com/sectionfiveinquiry.aspx. The form of affidavit is attached to this letter.

Finally, the Commission notes that some filing dates in the table in section 1 of Exhibit A-28, inadvertently show some dates as being in 2009 when they should read 2010. A revised table is shown below.

Period Number	Period Start	Period End	PACA Application Filing Date	Status
1	Inquiry Start	June 24, 2009	July 3, 2009	Paid
2	June 24, 2009	September 30, 2009	October 15, 2009	Future
3	October 1, 2009	November 30, 2009	December 15, 2009	Future
4	December 1, 2009	January 31, 2010	February 15, 2010	Future

Yours truly,
