Additional information

Please state your reasons for intervening in this proceeding.

AMPC regrets the delay in filing for intervener status, but the matter only recently came to AMPC's attention because, in contrast with typical practices and past AMPC requests, it appears that service was effected on only one of AMPC's counsel, who was out-of-office. AMPC has taken immediate steps upon learning of this proceeding to file this intervention request. AMPC accepts that it must take the proceeding as it finds it, and does not request any accommodation concerning the existing procedural schedule.

AMPC is an industry association that represents many of BC Hydro's large industrial customers in matters of electricity

regulation. AMPC members are transmission level customers of BC Hydro in the pulp and paper, forestry, mining, electrochemical and petrochemical sectors, and collectively represent a significant majority of BC Hydro's large industrial load.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making.

This proceeding will consider the Commission's regulatory oversight of BC Hydro's capital expenditures and projects, and review BC Hydro's expenditures relating to its adoption of SAP's platform. As such, this proceeding will impact AMPC's members' directly, through its review of BC Hydro's expenditures which ultimately determine rates, and indirectly, through a review of Commission processes that ensure that future capital expenditures, and therefore rates, are reasonable. AMPC will bring an informed and experienced perspective to these issues.

Please list the key issues you intend to address in the proceeding.

At this time AMPC expects to primarily be an observer in this proceeding, although it may wish to file evidence or final argument depending on how the proceeding and issues evolve.
