I received a notice from Fortis regarding the City of Surrey raising the cost of the delivery of Natural gas by Fortis, well this is a secret I guess but I did find out it is somewhere between .7 and 3%. I strongly disagree with this.

The City of Surrey has not brought this issue to the people and explained why this is taking place. If it is just so the City can obtain a cash cow from the residents then it should stop. Surrey is growing everyday and every residence has gas, or most do, and delivering the product, the product, and collecting their fee is a Fortis job and not the City of Surrey.

I do not understand what this has to do with the City and what business is it of theirs. I do know the city hall has GO thermo so they really are not involved.

I find this to be a disgusting matter keeping people in the dark with rate increases, I thought when you elect people they are in this office to help assist and take care of the PEOPLE not constantly taking money from utilities they have nothing to do with.

Please tell me how I go about putting in a formal request to stop this action. Voices must be heard.

Please accept this as a formal request to reject this matter.

Thank you for this opportunity to express my feelings.
