Dear Mr. Patrick Wruck,

Re: ICBC 2017 RRA and the BCUC Regulatory Timetable Exhibit A-3

Today I received through the email service the BCUC Exhibit A-3 dated October 10th 2017, re: BCUC Order G-156-17 with reasons accompanied with the Regulatory Timetable.

I also received through the BCUC email service Exhibit C2-2 submitted by Mr. Jim Quail, counsel for intervener MoveUp C2.

Speaking for myself, a senior (one man show), I totally agree with the position described by Mr Quail, and I wish to reiterate their request, quote:

“I ask that the deadline for Intervener IR No 1 be postponed at least to the close of business on Wednesday November 8”.

As the commission is aware, I am also concurrently heavily engaged with two other hearings before the commission, namely, FEI and the City of Surrey, and the BC Hydro Site C. All of which taxes my available time to meet each hearings regulatory timetable.

Kind regards,

Richard T. Landale.
