Additional information	
TREAD represents a group of ICBC customers concerned by rapidly increasing compulsory automobile insurance rates in BC, and the current inequity of unreasonably low rates for bad drivers whose behaviors disproportionately drive up automobile insurance rates and unreasonably high rates for better drivers. As ratepayers of the Corporation, TREAD's members have a direct interest in the issues arising in the review of the 2017 Revenue Requirements Application.	

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making.

TREAD has actively intervened in each ICBC Revenue Requirements Application proceeding since 2013. TREAD members will be required to pay the rates approved by the Commission as result of the current proceeding.

Please list the key issues you intend to address in the proceeding.

Cost management of claims and operations; strategic vision; investment management and performance; consistent application of actuarial standards; performance measures; affordability of Basic insurance rates; road safety; fraud and exaggerated claims; capital management; and other issues arising from the Application and the Independent Review Report prepared by Ernst & Young LLP.
