

Good afternoon Patrick Wruck
BCUC Commission Secretary

I am writing from a computer in the Guildford Library.

I am writing to request a special time extension for Intervener C1 - Information Request # 1 on the grounds that my one and only computer is in the repair shop as I write.

In accordance with General Order G-156-17 the Regulatory Timetable sets out that Intervener IR# 1 shall be filed by November 6th.

I am requesting a short extension of 2 days to November 8th at 4:00pm PST.

Reasons for Request.

1. I belong to the Surrey Library System, having access to two libraries. The Surrey Library rules provide customers with a maximum of 90 minutes per day. Which in my case translates to 3 hours per day. The extension request is seeking 6 more hours of computer access time to complete my IR submission.
2. My access to emails can only be made while I am at the Library.
3. The library software and Desktop are quite different to my normal home computer operating setup, so there are usage delays causing negative time efficiencies.
4. The computer repair cannot give me a repair completion date at this time.

I am hoping the Commission and ICBC will grant this extension, on the grounds of my past participation and serious efforts to participate constructively in all Hearings since 2011.

Thank you, kind regards,
Richard T. Landale
Intervener C1
