Attention: Ms. Erica Hamilton, Commission Secretary

Dear Sirs/Mesdames:

Re: British Columbia Hydro and Power Authority (“BC Hydro”) 2015 Rate Design Application (“RDA”) ~ Project No. 3698781

The City of New Westminster Electric Utility (the “New West Electric Utility”) writes in compliance with Order No. G-12-16 dated February 1, 2016 requesting final arguments with respect to Rate Schedule 1827 for the above-noted matter. We acknowledge that we are late in filing these submissions and apologize for the delay. The writer was away from the office last week and was unable to submit these comments.

The New West Electric Utility agrees with BC Hydro’s RDA filed with the British Columbia Utilities Commission that BC Hydro continue with RS 1827 for the four exempt customers who are on this rate schedule which includes New West Electric Utility.

The New West Electric Utility has participated in the stakeholder workshops during the year and submits that no persuasive evidence has been provided which would justify a change to New West Electric Utility’s access to Rate schedule 1827.

If you have any questions regarding the above, please do not hesitate to contact the writer.

Yours truly,

R. E. Carle, C.I.M., P.Mgr.
General Manager
