CEBC represents power producers that sell and/or wish to sell electricity to B.C. Hydro. It also represents suppliers and consultants that provide goods and services to these producers. The

CEBC holds an annual general meeting, hosts an annual conference and its board meets regularly.

CEBC will attend the Workshop and Procedural Conference.

Although the CEBC is in the very early stages of its review of the Fiscal 2012 -2014 Revenue Requirements Application, generally the nature of the issues it intends to pursue includes but isn't limited to the following:

- Is BC Hydro achieving the best value for the cost?
- Is it adhering to British Columbia's energy objectives in a timely fashion?
- Is it over or under-staffed (or resourced) to achieve these objectives in the most cost-effective manner?
- Are the balances in the deferral accounts being adequately dealt with?
- Is BC Hydro's generation providing reliable service?

The CEBC will be actively involved in the review process established by the BCUC.

Yours truly,
