**BY EMAIL**

BC Utilities Commission  
Sixth Floor, 900 Howe Street, Box 250  
Vancouver, BC V6Z 2N3

**Attention: Erica Hamilton, Commission Secretary**

Dear Sirs / Mesdames:

**Re: FortisBC Inc. Application for a Certificate of Public Convenience and Necessity for the Advanced Metering Infrastructure Project  
~ Project No.3698682**

We write to address several issues that arise out of the filing of evidence on behalf of the CSTS.

## **1. Sears reliance documents**

By letter of January 25, 2013, we informed the Commission of our reliance on documents referenced in the January 24, 2013, report of Margaret E. Sears.

We subsequently have been advised by the Commission that it is not appropriate to file documents in the manner by which we sought to file (via a cloud delivery service). As such, we withdraw our attempt to file the Sears reliance documents as exhibits in these proceedings. Each of those documents remain referenced in the Sears report and can be made available upon request.

## **2. Report of Isaac Jamieson - size**

By email to the Commission today, we filed the report of Isaac Jamieson which consisted of a single 19.3 MB PDF.

As we had technical problems uploading the document to the BCUC site, we resorted to filing by email with all parties copied. We apologise to the Commission and all parties for the size of that email. We anticipate that the document will be posted on the BCUC website for those parties that were not able to receive an email of that size.

### **3. Report of Isaac Jamieson - timing**

The report of Isaac Jamieson was filed with the Commission by email shortly after the close of business on January 25, 2013.

We seek leave of the Panel Chair to file the report of Isaac Jamieson late on the basis of the following circumstances.

The report of Isaac Jamieson was provided late by the author to the CSTS on January 25, 2013, for reason that the author had technical difficulties with assembly and transmission of the document.

Attached is the author's email of January 25, 2013, substantiating the claim of technical difficulties.

**All of which is respectfully submitted.**

Yours truly,

**DAVID M. AARON**

---

David,

Apologies in taking so long to get back to you. The document I have been putting together got corrupted as it was being finalised, and I have had to stay up for virtually the last two and a half days to repair its chapters, which will now be sent individually. Hope it is still of use.

Please let me know how matters stand.

Best regards, Isaac
