Dear Madame:

Re: British Columbia Hydro and Power Authority - Application for Approval of Section 2.5 Guidelines for Tariff Supplement No.3 to Rate Schedule 3808

We are legal counsel to AMPC in this matter and write to request intervener status for AMPC.

AMPC is an industry association that represents major industrial load customers in matters of electricity regulation. AMPC members are transmission level customers of BC Hydro in the pulp and paper, forestry, mining, electrochemical and petrochemical sectors, and collectively represent a significant majority of BC Hydro's large industrial load.

AMPC has participated in past proceedings that have considered (whether separately or together) RS 3808, potential arbitrage, and the application of GBLs to industrial customers. As all of these issues are relevant to the current proceeding, the outcome of this proceeding may affect AMPC members.
