Subject: Re Rate Review

Dear Commission Secretary:

This is a request for an extension for the reason that Hydro has not advised us as required, and we all need time to read this lengthy document.

*** I am registering as an "intervener".

Along with others, I am not aware of any Workshop in which the public had an opportunity to provide comments, but I do know that I and many, many others have complained about the legacy fees and the failed installation fees; all of which are the highest in North America that we've found.

May I ask: "How many complaints have to be made to BC Hydro before they acknowledge that there is a huge ongoing problem here?"

I'm sure it is quite obvious to BC Hydro that multitudes in BC are fed up with these ridiculous fees, the way they are being assessed, and the lack of justification for them. This is outrageous and unfair. Where is justice?

Thank you for your time.

Sincerely,
Garry Lybeck
Very disturbed customer (to say the least).
