**RE REGISTERING PROGRESS ENERGY CANADA LIMITED AT A NON-ACTIVE INTERVENOR REGISTRATION – BC HYDRO 2015 RATE DESIGN APPLICATION**

Dear Erica,

I am writing to register as a non-active intervenor for BC Hydro's 2015 Rate Design Application.

My contact information for filed documentation is below. A Midgard client, Progress Energy is an active gas producer in Northeast BC and in considering electrification of its planned gas facilities in the region north of the GM Shrum generator station. Should the electrification project move forward Progress would purchase power under a transmission rate tariff. I wish to monitor the process for any issues that would affect their project or tariff and rates moving forward.
