Attention: Ms. Erica Hamilton, Secretary to the Commission

Date: January 9, 2016

Dear Ms. Hamilton,

It has come to my attention that Sharon Noble's intervener status has been rescinded by the Commission's office. I have studied the harmful effects of ionizing radiation from smart meters aka murder/spy weapons on our homes and I also have an electrosmog meter that measures the radiation and it's quite alarming. Staff at BC Hydro are ordered to lie to the public who pay them telling us that the meters are safe when there is more than enough evidence that they are not. Please read: **CERTIFICATION BODY (UL) DECLARES SMART METERS TO BE FIRE HAZARDS.** <https://smartmeternewsupdates.wordpress.com/2015/12/30/canada-december-15-press-release/>

I am requesting that Ms. Noble be allowed to represent me and my concerns and that Sharon's intervener status be reinstated immediately.

Thank you and enjoy your day.

Yours truly,

Linda Siperka
