It has come to my attention that Sharon Noble’s Intervener status has been cancelled by your office. This is such a loss to me and a great many other Hydro Customers! We need somebody to stand up for us, protect us...I always understood that your people would take that position, since you do not seem to feel that way.... we sorely need Mrs. Noble’s help and protection. Her great knowledge, information she shares with all of us should never be killed! Please do not do that to us, the people!
Pamela Verduyn.
