Subject: BC Hydro 2015 Rate Design Application - request for follow-up
Date: Tuesday, January 12, 2016 8:46:11 PM

Dear Constance Smith

I was not at all sure where to send this request for a follow up.

My name is Carol Hargitt I live at [REDACTED] my e-mail is [REDACTED] I confirm I would like this posted as a letter of Comment.

Hydro's attempt to increase reconnection fees to \$700 is beyond disgusting . According to the BC Utilities Act this is illegal because it is discriminatory and it is punitive. In addition several aspects of the Tariff are on Hydro's list for changes. Hydro should not have free rein with no control or limits.

I am requesting that Sharon Noble has her status as an intervener reconsidered as she represents not just my concerns but those of many and she should have the chance to voice these concerns. I hope some thought is given to the other interveners who were rejected and may also be reconsidered.

Everyone should have had the democratic right to refuse smart meters put on their homes and businesses seems this is not a democracy any longer. There are many known facts to the damage these meters have caused and will continue to do so and it has all happened in such a short time, what happens to human beings after 15, 20 and more years, with constant assault on minds and bodies, more small children have developed cancer of the brain, meters have caused fires that Hydro insists are not caused by the meters but before fireman or anyone else can test that out they are removed by hydro, why are they hiding them. People are getting sick and many are having major health problems.

Our government is not giving us care or protection. I believed that was a governments job.

Thank you for listening to my concerns.

yours truly

Carol Hargitt

for those who had power cut because access to the meter was refused.

This fee is multiples of fees charged to reconnect power to other customers

not just my concern but those of many and she should have the chance to voice these concerns. I hope that others who were rejected for the same reason will also be reinstated.

Everyone should have had the democratic right to refuse s-meters put on their homes and businesses, seems this is not a democracy any longer. There are many known facts to the damage these meters have caused and will continue to do so. They have happened in a short time, what happens to human beings after 15, 20 and more years, with the constant assault into minds and bodies that the meters are causing.

Yours truly

Carol Hargitt

BC Hydro ratepayer

Subject: BC Hydro 2015 Rate Design Application - request for follow-up

Thank you for your letter responding to Exhibit A-9 regarding BC Hydro's 2015 Rate Design Application, currently before the Commission.

Could you please confirm that you would like this posted as a Letter of Comment on the record? Letters of comment must contain the commenter's name, contact information and a statement of their position on the application. Letters of comment form part of the public record for the proceeding and are posted on the Commission's website as a part of the proceeding here: <http://www.bcuc.com/ApplicationView.aspx?ApplicationId=511>. Prior to posting your submission to the website, your contact information will be removed unless requested otherwise. A copy will be provided to the Commission Panel and all participants will be notified of your submission.

Thank you,

Constance Smith
