Additional information

Please state your reasons for intervening in this proceeding.

My concerns are whether there are any guidelines and rules put in place to ensure BC Hydro does not abuse their authority and discriminatingly decide to charge the punitive \$700 without any justification. Who decides whether the reconnection charge is \$35, \$280 or \$700? What recourse does the customer have if this \$700 charge is used purely as a form of punishment?

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making.

The BCUC's duty is to ensure all customers are treated equally, fairly, and without discrimination. I still have an analog meter and the \$700 reconnection charge could be used by BC Hydro to punish customers who have exercised their right to protect their homes and family from potential fire and health hazards from the installation of wireless Smart Meters. Also, BC Hydro's suggestions for changes to the tariff could result in having more control over their customers, less accountability, leaving every customer with less of a voice.

Please list the key issues you intend to address in the proceeding.

My involvement will be limited to the \$700 reconnection fee and the Tariff changes Hydro is proposing.

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable?

Yes

Do you intend to request PACA funding? This does not impact your ability to participate.

No

Have you or your organization web-registered as an intervener or interested party in the past 12 months?

No
