**Additional information**

Please state your reasons for intervening in this proceeding.

We represent low and fixed income residential customers, including those in FortisBC service territory, known in regulatory proceedings as BCOAPO et al. BCOAPO seeks the opportunity to review and provide submissions on the proposed changes to FortisBC's Net Metering program, and ensure such changes meet the stated objectives of the Program, including: improving Program understanding among customers, better aligning the Program with its original intent, and ensuring financial administration is such that the treatment of consumption and generation is clear,

consistent, and does not impact non-participants negatively. Our interest in the latter is particularly with respect to any impact on non-participant residential customers.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making.

Any changes to FortisBC's Net Metering Program that are approved by the Commission could have an impact on both participant and non-participant residential customers.

Please list the key issues you intend to address in the proceeding.

We intend to address whether any proposed changes will have a negative impact on residential customers.

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable?

Yes

Do you intend to request PACA funding? This does not impact your ability to participate.

Yes

Have you or your organization web-registered as an intervener or interested party in the past 12 months?

Yes

If yes, please provide your username
