Additional information

Please state your reasons for intervening in this proceeding.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making

The Commission's decision will financially impact the rate at which my \$26,000 plus household investment in energy conservation and solar production is recouped.

Please list the key issues you intend to address in the proceeding.

1. Need for fair and reasonable net metering tariff rate, that takes into account FortisBC's reduced infrastructure costs when households produce their own power and sell excess to FortisBC
2. The continued obstacle that the Basic Charge is to encouraging household energy production
3. Taxation on gross electrical sales by FortisBC, instead of net sales to net-metering customers
4. The long term need for FortisBC to offset reduced hydro energy capacity with household produced renewable energy, due to low summer and fall flows as a result of climate change.

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable? Yes * No

Do you intend to request PACA funding? This does not impact your ability to participate. Yes No

Have you or your organization web-registered as an intervener or interested party in the past 12 months? No Yes

** This depends on whether I can appear electronically by voice for any oral hearings*
