**Re: FortisBC Inc. ("FBC")
Net Metering Program Tariff Update**

We write further to Commission Order G-94-16 to provide submissions on further process on behalf of our clients BCOAPO *et al.*

BCOAPO does not require a second round of information requests, but does not object to a second round being granted at the request of other intervenors. BCOAPO submits that following the evidentiary stage, FBC should make final written submissions, followed by written submissions from intervenors.

BCOAPO does not intend to submit evidence in this proceeding, and does not require an oral hearing.

All of which is respectfully submitted.
