

BC Hydro 2015 Rate Design Application

B-42

**BC HYDRO UNDERTAKING NO. 4**

HEARING DATE: August 16, 2016

REQUESTOR: BCOAPO

TRANSCRIPT REFERENCE: Volume 3, page 497, lines 8 - 19

---

**QUESTION:**

Explain what is meant by the “direct install of energy-saving measures in non-profit apartment suites” referenced in the footnote to Table 1 in the revised response to BCOAPO IR 1.109.3, in Exhibit B-19? Is this part of ECAP? Are these ESK installs?

**RESPONSE:**

The footnote references an offer that enables non-profit housing providers with apartment units to have ESK measures installed free of charge by the contractor. The “direct install” offer differs slightly from the standard ESK offer in that units participating can receive more of the standard items that would typically be mailed to participants in the ESK. For example, if the unit requires more than four light bulbs – more would be installed – the offer is not limited to the quantity found in the standard kit.
