**RE: THE STARGAS UTILITIES LTD. RESPONSES TO SILVER STAR PROPERTY OWNERS ASSOCIATION
INFORMATION REQUESTS AT THE SRP DECEMBER 14 2016**

Please note that the transcript of the SRP indicated that a Dennis Warrens was present as part of the delegation. This should be corrected to Denys Lawrence both in the appearances as well as on page 5. We did note that there were 3 other directors in the room but off camera due to microphone restrictions, whether that is an appearance, I leave to you.

The SSPOA would request that Stargas address the following questions in a more fulsome manner.

Stargas Utilities Ltd. - Delivery Rate SRP - December 14, 2016

Page: 44

MR. BLUMES: This was an audit -- I'd have to look at my records, sir, as to the time frame. It's two or three or four years ago.

Please confirm when the sales tax audit took place, or more particularly when did Stargas start charging the \$25 Basic Charge for Condominium Customers?

Page: 56 & 57

Could you tell us, 'cause it seems as though this misunderstanding with the pool sort of brought to light - that I'd like to know how many times you visited Silver Star over the past four years, when you say that you've devoted 16 hours per year?

MR. BLUMES: Okay. In the past ten months, once. Prior to that my memory wouldn't allow me to recount. I could counsel with my wife, who generally is with me when I do that. But in the last eight months, but once.

Please confirm the number of times you have visited or interacted with the resort management over the last 4 years.

Page 30

MR. FUHR: Yes. So what my role is, is to review all options for Stargas in terms of procurement. So, I do look at gas marketing options as well as other producer options. So no different than each year we look at various options available to Stargas.

Please describe where the fees for this consultant are itemized?

Thank you for your attention to these requests.

Regards

Mike Waberski Chair, SSPOA Utility Services Committee
