If your organization has not submitted an informational document in the last 12 months, please file it with this form.

For organizations only - representative contact information

Name
Organization (if different from above)
City Province
Email Phone number
Also representing (if applicable)

Additional information

Please state your reasons for intervening in this proceeding.

To ensure that FortisBC's 2016 LTERP & LTDSM Plans are accurate, particularly with regard to the assessment of the energy efficiency and conservation potential for FBC customers and the ability of DSM programs and electricity rates to realize that potential.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making.

I am an FBC customer and am therefore directly affected by any decisions having an impact on the electricity rates being charged by FBC. As well, I am an expert in the area of assessing the economic potential for conservation and economic efficiency. Before I retired I served 11 years as Director, Demand Policy and Analysis, Office of Energy Efficiency, Natural Resources Canada. I am also a registered intervener in the BCUC RIB Rate Report that has raised the issue of the role of DSM programs in reducing the negative bill impacts of two-tier rates.

Please list the key issues you intend to address in the proceeding.

The economic potential for energy efficiency and conservation and the likely effectiveness of DSM programs and electricity rates in realizing that potential

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable?

Yes

Do you intend to request PACA funding? This does not impact your ability to participate.

No

Have you or your organization web-registered as an intervener or interested party in the past 12 months?

No
