Phone number:

Also representing (if applicable):

Additional information

Please state your reasons for intervening in this proceeding:

BC Scrap-IT is a large provider of incentives for consumers to scrap their older vehicle and replace it with an Electric Vehicle. To date our program has resulted in over 1,700 EV's purchased and now operating in BC. A

barrier to the widespread adoption of EV's is the lack of charging infrastructure. We support actions to expand charging in all locations.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:

Many consumers don't have a place to charge their vehicle and as a result do not purchase an electric vehicle. Scrap-IT supports actions in the market that will facilitate many more chargers installed in work places as well as in public access locations. Allowing those who pay for the charger installations to recoup their investment via billing for electricity used for EV charging will send the right signal to the market and help substantially expand the number of chargers in the province. Scrap-IT supports a decision to allow this to happen.

Please list the key issues you intend to address in the proceeding:

Barriers to EV vehicle purchase and use.

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable?: No

Do you intend to request PACA funding? This does not impact your ability to participate: No

Have you or your organization web-registered as an intervener or interested party in the past 12 months?: No

If yes, please provide your username:
