**Comment:**

Dear British Columbia Utilities Commission, Re: BCUC EV and EV charging station commission I am very disappointed to having missed the British Columbia Utilities Commission (BCUC) meeting held in Prince George on March 12th. I only learned of this meeting in Prince George long after the meeting had occurred. It is clear from the transcript from the meeting that little was known about the presence of Electric Vehicles (EVs) and the charging infrastructure that is in place in Prince George. It is also clear that little insight was provided with respect to what is required to promote and support the expanded presence of EVs in BC north of Clinton. For this reason, I request the BCUC to host a meeting with interested individuals from Prince George and area via video. The University of Northern BC have facilities where individuals from Prince George and area can communicate and interact with you via video. I am in the process of writing a submission to the commission. What time frame do I have to complete and submit my submission? Yours truly, Doug Beckett [REDACTED]
