c/o Mr. Fred James

Regarding the BC Hydro submission DOC_51298_C1-3 BC Hydro Slide Deck Slide 4 – Forecasting Model, would BC Hydro kindly respond to the following queries:

- 1) What are the individual X,Y data point values for the data table behind the graph for EV Stock and EV Market Share of Sales vs year ?
- 2) What assumptions are in the graph with respect to any increase in the BC light duty fleet per year due to population growth in BC ?
- 3) Is there a reason behind the downturn in Market Share (sales) in 2028 ?
