Phone number:

Also representing (if applicable):

Additional information

Please state your reasons for intervening in this proceeding:

Concern over the current BC Hydro rate structure and the associated disincentive for increased use of electricity in the home.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:

We have increased the usage of electricity in our home (e.g. displaced gas burning heat with a heat pump). As a consequence, we are penalized with higher rates.

Please list the key issues you intend to address in the proceeding:

Adding any additional load, such as an electric car, would mean conducting any ROI at the higher rate and likely making it difficult to reduce our carbon footprint even more.

For administrative purposes only

Do you intend to participate fully, including attendance at hearings and submission of evidence or information requests, if applicable?: Yes

Do you intend to request PACA funding? This does not impact your ability to participate: No

Have you or your organization web-registered as an intervener or interested party in the past 12 months?: No

If yes, please provide your username:
