Additional information

Please state your reasons for intervening in this proceeding:

Living in the lower mainland is the most expensive, difficult place to be. BC currently has the most expensive car insurance in the country. I am a single mom and can't afford the rent, let alone another increase in my car

insurance. If ICBC can't manage their money, they should be increasing the rates of the drivers who are most at fault. We know who they are people. Privatization is the key. We have had enough of this shit!!!!

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:

I don't make enough money to survive in this city as it is and increases of any kind will directly impact me. I live in Port Coquitlam and work in Vancouver and need my car.

Please list the key issues you intend to address in the proceeding:

Privatization Addressing drivers that are most at fault regardless of race Mismanagement of ICBC
