---

Dear Mr. Wruck

RE:

**British Columbia Utilities Commission – An Inquiry into the Regulation of Electric Vehicle Charging Service – Phase 2 –Project No. 1598941- Information on the February 27, 2019 Procedural Conference**

I will be unable to attend nor participate in the aforementioned conference as I am currently out of the country.

My written submission to the Procedural Conference:

*1. Whether the evidentiary record is adequate for the Panel's deliberation for the scope items in Phase 2:*

*a. If so, should Phase 2 of the Inquiry now proceed to final argument?*

I believe that adequate information has been collected and the Inquiry should proceed to final argument.

While there may be worthwhile information gathered through an extended review of other jurisdictions it is unlikely there will be any discoveries that materially affect this project. Other jurisdictions exist within different legislative environments and are at varying stages of EV adoption.
