Re: FortisBC Energy Inc. – Certificate of Public Convenience and Necessity Application for the Inland Gas Upgrade Project – Project No. 1598988 – Update on Notice to Parties

Dear Parties:

On February 15, 2019, the British Columbia Utilities Commission (BCUC) issued a letter informing parties of a potential issue involving a possible appearance of bias regarding the appointment of Commissioner Tom Loski as a panel member for the above-noted proceeding. In the letter, the BCUC requested that all parties file their questions or written objection with reasons with the Commission Secretary by no later than Wednesday, February 27, 2019, failing which, Commissioner Loski would continue to serve on the panel.

On February 15, 2019, the Commercial Energy Consumers Association of British Columbia (CEC) responded by email and submitted that it has no concerns with respect to this matter. No further responses were received.

Since no objections were received by the Commission Secretary by February 27, 2019, Commissioner Loski will continue to sit as a panel member for this proceeding.

Sincerely,

Original Signed by:

Patrick Wruck
Commission Secretary
