Additional information

Please state your reasons for intervening in this proceeding:
Ratepayer protection.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:

Policies implemented by BC Hydro have the greatest impact on future customer rates. I have either directly participated in or closely followed BC Hydro's key regulatory filings for the last 20 years, including the F18/19 RRA. I feel that there were gaps in the intervenors efforts during this most recent rate application, which I can help address. I worked in a senior strategic planning capacity at BC Hydro for 15 years. Most recently, I worked for Yukon Energy in a similar capacity. I testified on behalf of BC Hydro 4 times, including a RRA application/hearing.

Please list the key issues you intend to address in the proceeding:

Risk management practices and policies Resource planning practices and policies Power acquisition costs including IPP contracts Load forecasting PRES Site C LNG Electric vehicles and associated infrastructure
