Good morning Mr. Slater,

I hope this email finds you well. We have reviewed FortisBC's responses to KGI and we wanted to ask a clarifying question.

In the response to our last question, regarding the levies charged to Utilities, we are having some difficulty, given our inexperience with BCUC and its procedures, with understanding why FortisBC is charged more than BC Hydro.

This is an informal discussion and we don't want to take up too much of your time, so we understand this will be a short email dialogue.

Thank you for your assistance,

Elitta Sibtain
