Comment:

I have been concerned about Hydro rate increases for some time now. As you MAY NOT BE aware that the rates have increased by 26.94% in the last six years (2013 to current). The highest rate increase was in 2014 at a whopping 9%. I am concerned and have heard of others stating their bills are so high. As an example - My monthly installment plan has gone from \$158 per month in 2014 - 2015 . It went up to \$178 per month in 2016. Last three years it was up to \$259 per month. So my hydro bill has been getting higher every year. (My annual adjustment ends up being still up to \$400 at the end of my installment plan - which for me is in May of each year. That is IN ADDITION TO THE MONTHLY RATE OF \$259 PER MONTH) For Proof my account number is [REDACTED]. Note: I AM STRONGLY APOSED TO THE Rate Increases of BC HYDRO. Please mail a copy of my comment form to Bonita Danes, [REDACTED]. I do not have access to a printer. Thank you.
