**Comment:**

We reside on Cosens Bay Road and I am very interested in getting power to our residence. We need power as most BC residents do to allow us to enjoy our residence especially as we age and rely on it more and more for heat and lighting. Burning wood for heat and using gasoline for power is not the way of the future especially when clean energy is available through this application. Our family needs reliable power to enjoy our property and satisfy our basic needs. We are only asking for access to a utility that millions of other British Columbians have access to.
