Comment:

We are newer owners of property on Cosens Bay and are currently in the process of construction. We are not customers at the moment but have full intentions of subscribing in the future. We struggled with many issues regarding the lack of power options. We have been left to increase our expenditure on solar and propane but still not having enough and are limited on what we can run. Without the certainty of electricity we had to choose this option as the funds directed to this has eaten up our budget making it harder for us to participate. This is why urgency in this matter is so important for this community as there are still other families looking to build soon. We are in full support and hope you can provide the necessary help this community deserves.
