Comment:

My grandparents own this property, and have for over 30 years. and as they become older, I'd like to know they're comfortable and safe at the lake. This would really improve convenience for them. My grandparents are trying to accommodate younger generations by providing access to technology we're accustomed too. I find at night the generators disturb the peace and also are creating air and noise pollution. Acquiring such amenities will not only help in the long run, but will make everyone more comfortable.
