We have owned in Cosens Bay for 25 years and gave up waiting for power to come to the area so spent thousands of dollars on solar so that we could be more environmentally friendly but living off the grid is not everything people think it is. We fully support this application with BCUC and trust it will be approved so that there will be less use of generators, propane stoves and fridges, heaters and could be of assistance if there was a fire in the area as well as many other emergency and medical services.
