Additional information

Please state your reasons for intervening in this proceeding:

AMPC represents many of BC Hydro's largest industrial customers. They will be directly affected by this proceeding because they purchase large volumes of electricity, and electricity is often a large cost input for members' operations.

Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:

AMPC members' rates will be affected by the Commission's decision in this matter. BC Hydro practices, policies and programs will also be affected and, in turn, affect AMPC members. AMPC members are therefore directly affected. For that reason, AMPC and its predecessor organizations have played an active and constructive role in each of BC Hydro's revenue requirement applications over the past four decades. AMPC therefore also has information and experience that are relevant to this proceeding.

Please list the key issues you intend to address in the proceeding:

AMPC's focus is achieving competitive industrial rates. It will accordingly monitor and engage with multiple areas of the Application with the objective of scrutinizing the costs BC Hydro seeks to recover from ratepayers, to an extent commensurate with the streamlined process contemplated by the Commission for the review of the Application.
