## **Additional information**

**Please state your reasons for intervening in this proceeding:**

We continue to act as counsel for BCOAPO et al. ("BCOAPO"), a group of community-based organizations who represent a diverse cross section of residential energy utility ratepayers within BC who hold progressive views. Our interventions focus on the best interests of the residential ratepayer group as a class while taking into consideration the impacts of proposed rates, rate structures, and projects on the most economically vulnerable among them: the low and fixed income residents of BC.

**Please state how you are directly or sufficiently affected by the Commission's decision in this matter; or describe your experience, information, or expertise relevant to this matter that would contribute to the Commission's decision making:**

Our clients have a strong interest in this proceeding as BC Hydro's revenue requirements directly impacts the rates and interests of BC Hydro's residential ratepayers. We have participated in many BC Hydro's regulatory processes in the past, including F2020-F2021 RRA, and we submit we bring an important perspective to this public process.

**Please list the key issues you intend to address in the proceeding:**

BCOAPO intends to address how the approvals sought by BC Hydro impact residential customers, as well as such other issues that may arise during the course of this application.
