

## PARKLAND CORPORATION UNDERTAKING NO. 1

---

**Hearing Date:** August 12, 2021

**Transcript Reference:** Volume 2, Page 149, Lines 18 to 22.

**Requestor:** Ms. de Boer

**Witness:** Mr. Gray

**Question:** At a high level, what percent of Parkland's stations reported to Kent in 2019?

---

**Response:**

In 2019:

- approximately 98% of Parkland company-controlled sites in British Columbia reported fuel price data to the Kent Group; and
- approximately 48% of Parkland dealer-controlled sites in British Columbia reported fuel price data to the Kent Group.

Parkland obtained the latter figure from reviewing published Kent Group data as Parkland has no role in determining whether or not dealer-controlled sites report to the Kent Group.
