I would like to voice my support for the Site C dam construction. We are certain to

need more electricity in the coming years and the responsible way is clean energy. There seems to be little argument about that. The alternative ie nuclear energy is surely less attractive. The new NDP govt need time to ' get into the job' before they make hasty rash decisions about anything as huge as this .

The site C makes so much sense, make sure the 'silent majority ' don't get overlooked .

Sincerely

Dr W Simpson
