Dear BC Utilities Commission:

BC Peace River Valley and Land is my home land, my place of origin, my birth place. I have strong feelings against BC Hydro's Site C Dam project.

Please for the health, welfare, well-being for BC Peace River North, the province of BC, country of Canada, and globally, there is only one Peace River on Earth. This River has systematically sacrificed more than enough with completion of sites A = WAC Bennett Dam and man made lake Williston, site B = Peace canyon Dam and man made Dinosaur lake.

I respectfully request to please let the Peace River BE. It is meant to flow as a river, not to be damed and flooded with reservoirs. The completion of site c would be cumulative catastrophic environmental destruction.

"In northern BC and Alberta, there has been an explosion in resource extraction activities, with mega-projects like the Site C dam, hydro-fracked shale gas wells, a nuclear power plant and the tar sands. The economy is booming, but with it comes heated debate and conflicting claims about the impact on the environment. In this thought-provoking and beautifully made film, Vancouver-based director Charles Wilkinson talks to experts from both sides of the divide, presenting an even-handed look at the issues as he probes the deeper causes of environmental exploitation."

Peace Out Documentary by Charles Wilkinson.
