Dear British Columbia Utilities Commission,

It was not long after the creation of BC Hydro out of the BC Electric Company that Premier Wacky Bennett started to promote Site C Dam -- this was many years ago . From Day One I adamantly deplored this option. I do not consider myself to be a rabid environmentalist. as a Forester I have cut down my share of trees BUT we could turn so much of the waste created into electricity. unfortunately , there is absolutely no desire to do this.

Here on the Sunshine Coast our local pulp Mill has upgraded its electricity generating system and could make much more if we utilize Forest waste. Give people the incentives and they will march into action without resorting to Site C.

Please consider alternatives to Site C .

Sincerely,

Anthony Richmond

Sincerely,
