Subject: Submission on Site C Dam
Date: Saturday, September 23, 2017 3:32:31 PM

Dear British Columbia Utilities Commission,

I urge you to carefully consider the impact any decisions or actions regarding this issue will have.

I am writing to urge you to recommend that the Site C Dam be rejected.

The project is unneeded and a ridiculous expense considering solar will soon (within 3-10 years) be down to about 2.4 cents a kilowatt/hour. See Tony Seba and his book Clean Disruption (or view his projections on youtube:)

All existing hydro including nuclear will be obsolete. That is cheaper than what it costs to deliver let alone produce electricity.

Please reconsider.

THANK YOU

Sincerely,
Michael Robertson
