Dear British Columbia Utilities Commission,

I urge you to carefully consider the impact any decisions or actions regarding this issue will have.

I am writing to urge you to recommend that the Site C Dam be rejected. The project has serious financial and environmental problems, and runs counter to the goal of seeking reconciliation with Indigenous peoples.

These blatantly evident societal, financial and environmental costs should be flashing red lights that should be honoured. Can we not choose options which show a more informed and enlightened approach to help ensure the survival of the very planet and the creaturehood within which we depend on?

The Site C Dam is clearly not in the public interest, or Mother earth's interest. Please recommend to the BC Government that this project be canceled.

Thank you for your consideration.

Sincerely,
Bev Shoemaker
