**BCUC INQUIRY RESPECTING SITE C**

**F 188-1**

**Date: September 26, 2017**

**As a taxpayer I want to know who will buy power from Site C (if built). Specifically, are there pending agreements with Alberta or any American States? I want assurance that any calculation of contracted revenues will be higher than the cost per m watt charged to BC residential and commercial users. I want the commission to verify that BC Taxpayers will not pay three times for this project - 1. To build it. 2. to then pay for my own use and 3. to subsidize any entity outside of BC, or international non-tax paying commercial enterprise with operations within BC.**
