Their entire project should have NEVER started to begin with. First off I've read so many reports that prove we don't need it!! Secondly if it wasn't for the despicable Christy Clark only caring about herself and the massive \$\$\$\$\$ kick backs for her and her cronies, the public has had no say whatsoever which is absolutely unacceptable as well!! We don't need it!!! And neither do my children's children to be saddled with a 15 BILLION a dollar debt if it goes through!!
