BCUC INQUIRY RESPECTING SITE C

F 207-1

Date: September 28, 2017

Need to include on Site C evaluation the income loss for the province from from the flooded land. Need to put a value on the lost oxygen generation of the flooded land toward reduction of greenhouse gas. Natural land has a value which will offset cost of non hydro power. Need to come up with a value in \$/hectare of natural land.
